VOLUME 4 ISSUE 77

FROM THE SUPERINTENDENT

Small classroom spaces, poor electrical capacity, and inadequate safety and security measures affect our students on a daily basis, but it can be hard to understand their impact on education without experiencing them first-hand. While Band-Aid solutions can address some of our issues, our buildings were not designed to educate students in the 21st century, and it puts our students' competitiveness at risk. While all of our buildings have similar issues, allow me to share a few that really stand out.

Our classrooms were all built to hold desks organized in rows facing the chalkboard. It's the lecture style classroom we, as adults, are familiar with, but it's not conducive to the preferred methods for teaching and learning today. Today, a productive learning environment is interactive and collaborative. It has technology, and different spaces

that recognize all children do not learn in the same way. There is ample space to learn in groups using moveable tables and chairs to support teamwork and cooperation. Instead, our teachers have to allot extra time to push together bulky desks that are cramped in undersized, hot classrooms.

Our buildings also provide challenges when teachers try to integrate technology in their lesson plans, which is often. No one anticipated a century or half-a-century ago how necessary it would be to plug in computers, or charge Chromebooks - and all classrooms lack electrical outlets. Wi-Fi is also unreliable due to the concrete walls in all of our buildings which weaken the signal in each classroom. This disrupts lesson plans, and impacts student learning on a daily basis. Last year at South Amherst Middle School, a computer over-heated and smoke appeared because of the building's inadequate electrical capacity. Our staff handled the issue immediately and no students were in danger, but disruptions like this impact learning.

Lastly, safety and security is a top priority in our district, but our buildings were not designed to protect our students and employees in the way that is necessary today. For example, the majority of our classroom doors lock from the outside, which means in the event of a lockdown teachers have to go out into the hallway to lock the door. At our middle and high schools, there are no lobbies or gathering places, visitors walk directly into a hallway filled with our students when they enter. The considerations we would make for a new building today are significantly different than the considerations the builders made 50 to 100 years ago. While we have invested in systems to make our schools safer including installing security cameras and implementing a visitor identification program, inherently the design of our current buildings is the greatest challenge to protecting our students and employees.

We are grateful to our Building Advisory Committee for reviewing the data at hand to help make a recommendation to our school board for how to address these problems. As the process continues, I hope this helps to illustrate just some of the issues that impact student learning. Firelands' students, staff, and programs are strong, but the age and design of our buildings add hurdles to the learning environment that will hurt our community in the long term. We can do better for our students, and with your help, we will.

SAMS NEWS

We completed two rounds of conferences in October and the turnout was large. We love meeting our families and believe that the home-school relationship is crucial to the success of our students. Our PTG provided dinner for our teachers both evenings and we are so grateful for that.

NJHS planted trees as a community improvement project on October 28 at the South Amherst Community Park. Thank you to John Carlock for heading that up. It was a cold, bitter morning but everyone pulled together and got the work done quickly.

Stephanie Coultrip held our 8th grade Philly parent meeting at the end of October. There was a huge turnout and we get so excited as we plan this wonderful trip.

We began our morning intervention program the last week of October. This is for students who did not meet grade level, expectations on the AIMSWEB Plus-assessment. This will help them get to where they need to be and is another way we support our student's growth.

Ellen Gundersen received a grant through the Cleveland Museum of Natural History and we received one whole school assembly and one grade level assembly for each grade. We held our whole school assembly in conjunction with our PBIS day and provided students a treat of live animals of Northeast Ohio.

Our teachers are participating in peer to peer walk a-bouts. This is a great opportunity for teachers to see the world from another set of eyes for a day. We are excited to build this program.

Basketball season is beginning so make sure to come see our kiddos in action.

- ⇒ November 22-26 No School- Thanksgiving Break

Firelands Community Unites For Service Project

"If a free society cannot help the many who are poor, it cannot save the few who are rich." John F. Kennedy. The 6th grade students at South Amherst Middle School once again were educated on the definition of "hunger" and "community service". Mrs. Finnegan's FFA students from FHS came to SAMS on Wednesday, November 8th to teach the students the real definition of hunger along with the statistics related to hunger on a daily basis. This was the first part of the 6th Grade Service Project that does a small part to help raise awareness for hunger in our district. This was ALMOST the conclusion of the service project this year.

Without a grant to fund the "Thanksgiving Baskets" this year the 6th grade team of teachers decided to step out on faith, ask the staff and community to provide the food for the baskets. The food came flooding in by the cases. The staff of FES, FHS, SAMS & the BOE donated over 36 frozen turkeys. The sixth grade students along with local families, churches and businesses provided the remainder of the continents. Finally, more than 36 Thanksgiving Food Baskets were delivered on Thursday, November 16th.

This was not the end, Church of the Open Door offered to provide each of these families a Christmas Food Box so that these families could duplicate that special holiday memory of having a home cooked meal around a table for Christmas dinner also! The Christmas Food Boxes will be distributed in the same manner. A huge THANK YOU to all that helped make this a Firelands Family Thanksgiving and Christmas, especially members of First United Methodist Church, owners of TrainWreck Bar & members of Church of Open Door! Sometimes it really does take a "village".

Field Trip to Playhouse Square

On October 26, 2017, the 3rd grade classes at Firelands Elementary attended a field trip to Playhouse Square to see the musical *Hansel & Gretel, A Musical Treat*. The children had the opportunity to see live theater at the largest performing arts center in the country outside of New York! Students learned about the history of Playhouse Square as well as the history of musical theatre. Thank you to the FES PTG for funding the busses for the field trip.

Red Ribbon Week

Monday, October 30 through Friday, November 3, Firelands Elementary participated in the nation-wide effort known as "Red Ribbon Week". Students were educated in developmentally appropriate ways about the dangers of drugs and alcohol, they learned about the use of refusal skills and celebrating a drug-free life. The theme of this year's celebration was "I like being me and staying drug-free". Lessons focused on making healthy choices in all areas of our lives. As part of this celebration, the entire school participated in spirit days, dressing up to a different theme each day. It was a fun-filled week, learning about the benefits of staying drug-free!

Falcon Pride Store

The Falcon Pride Store is making monthly rounds to all grade levels. This provides students with the opportunity to purchase items using their earned Falcon Bucks. Falcon Bucks are given to students when they exhibit positive behaviors inside and outside of the classroom. Along with the traditional items that are available, students also had the opportunity to purchase a chance to win Falcon Spirit Wear and a football signed by the FHS Varsity Football team. Our raffle winners of the Falcon Spirit Wear were third grader Brennyyn Coley and fifth grader Noah Thompson. The winner of the football was Ethan Dekam, one of the kindergarten students. Future raffles include being a ball boy or ball girl for a Varsity Boys or Girls Basketball game. FES staff is pleased with the positive behavior that is frequently exhibited within our building.

Veteran's Day Program

On Friday, November 10 the fourth graders at FES presented a program for invited veterans. The students invited veterans that were close to them to attend and be recognized. Approximately 50 veterans and their guests attended. The program consisted of a brief history of the various branches of military. Songs were also sang for the audience. Each guest was also recognized and received a certificate and a small gift of appreciation. The program concluded with cupcakes and punch or coffee for the guests. Funding for the program was graciously provided by the FES P.T.G. It was moving to see our students honor their veterans in such a respectful manner. Thank you to the fourth grade teachers and Mrs. Woods for their time and devotion to plan and create such an event.

PTG

FES is grateful to our Parent Teacher Group (PTG) for the many things they do for our building; including staff and students. They continue to support our endeavors and think of new ways to assist in the building. Their next meeting is scheduled for Thursday, December 7 at 4:00 pm in the FES library. Please consider attending and providing input for upcoming events.

Lorain County Professional Development Day at LCCC

Common Professional Development Day Benefits School Districts and Educators

An estimated 900 teachers, administrators and service providers in the Clearview, Columbia, Firelands, Keystone, Sheffield/Sheffield Lake, Oberlin and Wellington school districts participated in a Common Professional Development Day on Monday, November 6, 2017 at Lorain County Community College.

“Sharing services on this professional development day possibly saved each of the seven districts a conservative estimate of \$7,000” said Moira Erwine, Senior Director of Professional Development and Curriculum and Instruction, Educational Service Center of Lorain County. “Lorain County Community College sponsored the venue for the sessions, as well as facilitating sessions for Maker and STEAM education in the Patsie C. and Dolores Jeneé Campana Center for Ideation and Invention. The sponsor, McGraw-Hill, provided lunch. Furthermore, Lorain County Health District and Board of Mental Health worked collaboratively with us to plan sessions to meet the needs of the whole child.”

Participants started their day with a keynote presentation entitled, “*Deliberate Optimism: Reclaiming the Joy in Education*,” with internationally-renowned speaker and author Jack Berckemeyer. The planning team carefully designed 73 breakout sessions to meet individual professional development needs of both classified and certified staff that covered all grade levels, content areas, and specialists. These breakout sessions continued throughout the remainder of the day. Examples of the sessions include:

- ◆ Strategies for Comprehension
- ◆ Poverty for One Month
- ◆ Child & Adolescent Suicide Prevention
- ◆ Stemming Up to the Challenge
- ◆ Differentiated Literacy Instruction

Lori Roemer, Director of Educational Services at Firelands local Schools said, "The professional development offered to Firelands was well-planned and was an excellent ongoing learning opportunity for everyone. Our staff benefits from the time to grow educationally and they learn from their peers. We set the stage for that to happen at the Common Professional Development Day with six other districts-what a great day to learn and network with others!"

Work has already begun on the next Common Professional Development Day, November 5, 2018.

Adopt a Deployed Service Member at SAMS!!

South Amherst Middle School will be working with the SSG James P Hunter memorial foundation to "adopt Soldiers" this year for Christmas. This non-profit organization was started by a former Firelands graduate – Kathleen (Hunter) Thomas in memory of her brother James. James, also a Firelands graduate, was an army photo journalist that was killed in 2010 overseas while actively serving our country. Students will have several opportunities to get involved, including, donating acceptable items, making personalized cards and learning how to prepare/address/ship packages to deployed soldiers. SAMS is very thankful for this opportunity – let's show our soldiers some much deserved Firelands Family support!!

If you would like to learn more about this nonprofit foundation or would like to help please email Kathleen Thomas at ssg.jph.memorial.foundation@gmail.com.
