FIRELANDS HIGH SCHOOL

REPORT CARDS AVAILABLE ON NOV 7TH

REPORT CARDS IN POWERSCHOOL - Electronic report cards will be available to our students in Power School on Tuesday, November 7th. Please refer to your Power School account to access your grade card. You will be able to print that report card on a 24/7 basis, as the electronic version is very similar to what students will see at LCCC and other colleges and universities which they will attend.

Students taking CCP classes will not have their grades available in Power School until the end of the first semester in early January. Since colleges are on a Semester system, FHS students taking college classes will have to refer to their grades in-progress in their college on-line grading system. Athletes who are playing a winter sport should print out their grade-in-progress and submit to your coach or Mr. Stillman for grade eligibility checks as soon as possible.

Congratulations to Payton Burgdorf for his all-Ohio honor from last year's State Wrestling Tournament. Here, Payton accepts his award from Mr. Stillman as the Burgdorf family, friends, and coaches look on. Winter sports get into high gear this week.

GREENHAND CEREMONY - The Firelands Chapter of FFA (National FFA Organization) will be holding their annual Greenhand Ceremony in the FHS Cafeteria on Thursday, November 9th at 6 pm. The Greenhand Ceremony recognizes degree members who have satisfactory plans for a Supervised Agricultural Experience Program (SAEP) and demonstrate knowledge of the creed, code of ethics, motto, salute emblem, official dress, and important dates in FFA history. conferences tailored to what our teachers do in the classroom.

CLEAR LEARNING TARGETS(CLT)

One of the main focus of delivering instruction at FHS is for the students to understand what their goal is, on a daily basis, that they should be learning in each class. Our teachers work with the state standards to align them to our curriculum so that the students of FHS understand what they should learn, and what they will be assessed on in each of their classes. Learning targets are delivered to

the students in a variety of ways, but our teachers will always post and reinforce to the students what they should know at the end of each period. Professor John Hattie has studied 138 different influences on student learning, and one of the top positive influences is for students to self-question their understanding of the instructional material.

By utilizing clear learning targets, our students are given the ability to question if they truly understand the daily target. They are encouraged to ask questions and seek extra remediation if they are struggling to understand these daily targets. FHS students are given the opportunity in FAST and Wednesday Tutoring to receive extra help for the topics in which they are struggling.
